

8 FALL BLOOMING perennials for SA

CAPE HONEYSUCKLE

Blooms vibrant, tubular, orange-red flowers on dark green foliage vines, avg. size 7'-10' tall & wide, hummingbird magnet, full sun to part shade. Pollinator friendly.

Blooms purple flowers edged with white on long, weeping branches of green foliage, avg. size 8' tall x 4' wide (but can reach 10'-14' tall to), full sun, butterfly magnet.

DURANTA

WHITE FRAGRANT MISTFLOWER

Blooms clustered white flowers (similar to those of Gregg's Blue Mistflower, but white) on green foliage, avg. size 1'-2' tall x wide, shear back heavily in winter for denser shape and more flowers the following year.

Blooms daisy-like flowers, purple with yellow centers on mounding foliage. Perennial, avg. size 2'-3' tall x 2'-4' wide, full sun to part sun, larval host to Pearl Crescent butterfly, nectar source for other pollinators, freeze hardy.

FALL ASTER

SALVIA GREGGI

Blooms different colors depending on variety: red, pink, coral, bicolor, white, lavender, on green foliage, avg. size 2'-3' tall x wide, full sun for best blooms

Blooms daisy-like, golden-yellow flowers with a yellow center, leaves are a great substitute for the herb tarragon, avg. size 2' tall x 1.5' wide, full sun to part sun, pollinator plant, deer resistant.

MEXICAN MINT MARIGOLD

GREGG'S BLUE MISTFLOWER

Blooms profusely with bluish-purple, pom-pom like flowers on chartreuse foliage, avg. size 2' tall and spreads rapidly, drought tolerant, Queen butterflies can't resist it.

Blooms spikes of purple flowers against soft-textured, sagegreen foliage with a silvery tint, avg. size 3'-4' tall x wide, sun to part sun, pollinators love it.

MEXICAN BUSH SAGE
